

SOARING TO NEW LEVELS EVERYDAY

CAREER COUNSELING IN 5 MINUTES

Meet with a variety of professionals

Discover if Environmental Health is the career path for you.

This interaction is designed to give you a personal insight into the diverse and challenging opportunities available in the field of Environmental Health. In a dynamic setting, you will meet with practicing Environmental Health Specialists, one on one, for five minutes.

The **California Environmental Health Association** is proud to sponsor a student forum at their Annual Educational Symposium. In a friendly informal environment, students can hear first hand experiences from environmental health professionals, network with working professionals from all over California, and develop valuable contacts. Following lunch, technical breakout sessions on a wide variety of emerging issues are open to student participants at the Symposium:

- Control of Asbestos and Lead in Residences
- Permit Exempt Systems Successes And Potential Pitfalls.
- Grease Interceptors: All You Ever Wanted to Know...And Then Some
- Simple and Complex Systems.
- Working with People Living in Hoarding Environments:
- Military Songs- San Onofre
- California's Title 22 Standards: What are they?
- Simple and Complex Systems. To Permit or not Permit.
- Private On-Site Non-potable Graywater Treatment
- Orange County's Groundwater Replenishment System
- Decent into Madness: Mad Chemist, Collectors, and Other Eccentrics"
- How are Different Exhaust Ventilation Codes Developed?
- What Types of Tests are Required for Cooking Equipment?
- How UL Standards are Developed?
- Chemicals that Go Boom in the Night
- Hazardous Waste at Retail Locations
- Epi
- Ecoli Traceback Investigation: the Local Perspective

A unique opportunity for individuals considering environmental health as a career.
